Franco has wanted to put together a mostly "unplugged" show for a long time. The show will feature individual sets by Franco and each of his Fab Friends as well as some hot jamming towards the end of the evening.

Nick Blue – Superb singer/songwriter/violinist and voice coach from the Olympic peninsula. Has been compared to Cat Stevens, James Taylor, Bob Dylan and other greats. His repertoire includes an eclectic array of beautiful, clever, and funny original tunes as well as tasteful cover songs. Nick can also speak French.

Dave Clary & the Mayberries – Former guitarist with Locust Street Taxi, Dave now fronts a new band with his own Dave style and charm. The sound of this group is very unique and could possibly be called acoustic/alternative/pop-rock. In addition to his prolific song-writing Dave Clary is also a man of considerable acting talents...he will be appearing in "The Importance of being Earnest" at Corbet Theater in May.

Alex Wilson – Lead signer and guitarist from Olympia group Fezzik's Rhyme. Originally from PA Alex has years of experience and is one of Franco's favorite songwriters and jamming partners. He plays a classical nylon-string guitar and has over a hundred original songs including Yippy-Yop, and Outer Space Girl. Alex also has a large repertoire of cover tunes which he can pull out at any moment.
